

:: Important telecoms news for all franchise holders ::

Upgrade your business telephone system— and **save money.**

Opus Telecom can help you to provide your clients with the very best in **value** and **customer-focused service**.

Two key ways in which we can enhance these aspects of your business are by:

- ▶ maximising the quality and efficiency of communication with your clients; and
- ▶ reducing your operating costs.

HiQ has negotiated with **Opus Telecom Limited** to provide all **HiQ** operators with the opportunity to achieve precisely these aims.

Opus Telecom have agreed to supply **HiQ** franchise holders with the very latest, state-of-the-art business telecommunications systems—without it costing any more than you already pay.

In fact, **Opus Telecom** have **guaranteed to reduce your current spend**.

All **HiQ** franchise holders now have a rare opportunity to upgrade to the very latest technology and actually **save money** on running costs.

So what's the catch?

For once in life—there isn't one. All **HiQ** franchise holders now have a rare opportunity to upgrade to the very latest technology and **actually save money on running costs**. It's that simple.

And for added peace of mind, **Opus Telecom** offer not one, but **seven guarantees** to ensure that a new system supplied under this offer will meet your expectations (see below).

So if you're contemplating a new telephone system, or if you've ever wondered how to raise the quality of your telephone communications to a level equivalent to that of your competitors, we strongly recommend you take a look at this new opportunity from **Opus Telecom**.

For more information contact Matt Boyce at **Opus Telecom Ltd**. He will be more than happy to provide you with a no-obligation quotation.

Seven guarantees to ensure your satisfaction

This new proposal from **Opus Telecom Limited** to support **HiQ** franchise holders is an opportunity not to be missed.

The service enhancements now available are matched by **Opus Telecom's** impressive seven-point guarantee:

- ▶ If **Opus Telecom** can't identify savings from your current telephone spend, they guarantee to pay this month's call charges for free.
- ▶ They guarantee not to be beaten on price—they will match any like-for-like quotation and give you 10,000 free minutes.
- ▶ They guarantee to complete a quality installation on time—or they'll give you 10,000 free minutes.
- ▶ They guarantee the accuracy of their billing system to within 0.002 per cent, and are one of the few companies in the UK whose billing system is BABT approved.
- ▶ They guarantee to make a quarterly customer care telephone call—or they'll give you 10,000 free minutes.
- ▶ All workmanship is guaranteed for 12 months.
- ▶ They guarantee a minimum response time of four hours in the event of a service call—or they'll give you 10,000 free minutes.

Hi-tec features that will actually cost you less:

- Voice mail
- Caller identification
- Auto attendant—automatic management of incoming calls
- Call diverts, i.e. being able to take calls at other locations such as home telephone or mobiles
- Call redirection with Siemens HiPath—instant transfer of incoming calls to any telephone, anywhere, at the touch of a button
- Music on hold—or even your own promotional advertising
- All systems support future expansion
- Both corded and cordless handsets are supported.
- Reduced call costs
